

This class was a tremendous help! It helped me truly realize the areas of my life I needed to improve. This class has helped me become a better man, son, father, friend, etc... My relationship with my son has become stronger and my walk with God has increased! Since starting the class I've become a youth leader at my church mentoring 11th & 12th grade boys every Wednesday night. I'm continuing my college degree to have a bachelors in Criminal Justice as well as mentor inner city youth that are at risk for gangs + drugs. I highly recommend this course and the instructor was great! I feel confident in not making the wall of shame because Transformations did just that, transformed from something I didn't want to be, into something I'm 100% proud of! Thank you Debra for everything and your dedication to the course!
